The stand taken is that the website, even when created, shall be fully operational by the end of February, 2026. It is stated that time is taken on account of the fact that records pertaining to about 33,000 Public Information Officers are in the process of digitalization and that 30% of the records have already been so digitalized and it would take time to go full stream only thereafter.

Be that as it may, we post these matters on 25.03.2026.
